- **Nova Scotia:** IWK Health Centre

Total: 13 sites

➤ CP Contract agreement

Last sites signed:

- **Alberta:** Edmonton
- **New Brunswick:** Fredericton

Total: 7 sites

Congratulation to these sites!

CP Project Updates

Launching implementation of best practices for earlier diagnosis of CP:

- The first three randomized sites
— **Sunnybrook, McGill, and St- John NB** —
have started the project, with the first two meetings held with the CNFUN implementation team.

*Congratulations to these three sites
for their great collaboration!*

- The next three sites to start in September :
— **CHUSJ, McMaster, and Moncton** —

CHILD-BRIGHT Parent Voices Project Updates

- The project is implementing two Family-Important-Outcome-Measures (FIOMs) at the 18-24 month visit, reflecting the 7 outcomes families ranked most important:
 - About My Baby / Toddler (AMB)
 - Pediatric Quality of Life Inventory Infant Scales (PedsQL)
- Implementation planning underway with Parent Voices team for:
 - ✓ CHUSJ
 - ✓ McMaster
 - ✓ IWK Health Centre
 - ✓ BC Women's Hospital
 - ✓ Hôpital Maisonneuve-Rosemont

If others sites are interested in beginning implementation planning, they can reach out to :

Genevieve Sutherns

genevieve.sutherns@ubc.ca

We hope that all CNFUN sites will implement these FIOMs in the near future!

New CNFUN Publications

1. Maternal Diabetes and Neurodevelopmental Outcomes of Infants Born Before 29 Weeks' Gestation.

Akinseye A, Pylpyjuk C, Moddemann D, Afifi J, Banihani R, Aziz K, Wang D, Seshia M. J. Pediatr. 2025 Jan;276:114319. [PMID: 39306321](#)
